community integrated learning (CIL)

**themes:**  
Northern and Rural Health  
Personal and Professional  
Aspects of Medical Practice  
Social and Population Health  
Foundations of Medicine  
Clinical Skills in Health Care

The four-year MD curriculum is split into three phases: Phase 1 covers years 1 and 2 and involves a sequence of 11 modules with ongoing community integrated learning

Phase 2 consists of a 8.5 month long community clerkship

Phase 3 consists of seven specialist clerkship rotations

Five themes link teaching, learning and assessment into a single integrated curriculum
