

Financial Interest and Disclosure Working Group Home

The mission of the Financial Interest and Disclosure Working Group is to develop XML standards for the exchange of financial interest and disclosure data.

Working group members can access the [discussion list archives](#) for the working group or send email to the group at financialinterest@medbiq.org.

To our working group members, thank you for agreeing to participate in the Financial Interest and Disclosure Working Group. Your input is essential to the develop of rigorous technical standards for representing financial interest and disclosure data. Our goal is consensus, so do not hesitate to speak up on a call and give voice to your ideas, concerns, or overall feedback. With large groups on a call, background noise can sometimes be a problem. We ask that you mute yourself when not speaking to afford everyone a chance to be heard.
