

# Data for Educators

Recommendations on data that would be meaningful for educators.

- Free text answers on post-vp assessment for faculty handoff
- Answers to MCQs
- Duration of case interaction
- what pieces of information were viewed
- Duration something was viewed
- Frequency something was viewed (how many times did the learner watch the video)
- Completion data - for vp and for curriculum of vps
- Assessment data (if VP is an assessment)
- Navigation data, particularly on key nodes/decision points
- Association of nodes/decision points with competencies/learning objectives (milestones a maybe)
- Association of scores with competencies/learning objectives
