

Applying New Publication categories

Elaine and Pat worked to apply the following publication categories:

Publications

Peer reviewed

Non-peer reviewed

Presentations (including abstracts, poster, oral presentations, case reports, and workshops)

Feedback

CVs showed the following:

Publications (not possible to determine if peer reviewed)

PubMed indicated

PubMed not indicated (although probably available for most)

Accepted pending revisions

Submitted for review

Posters

Presentations

Abstracts (this term was used by about half the students in a list that also had posters and presentations)

Theses

Patents (related to research)
