

News

Creating RSS feeds in Confluence is easy.

Usage:

```
{rss:url=my_rss_url}
```

Parameter	Required	Default	Description
my_rss_url	yes	none	the url to the RSS feed

Example:

```
{rss:url=http://www.bbc.co.uk/syndication/feeds/news/ukfs\_news/world/rss091.xml||max=5}
```

Could not access the content at the URL because it is not from an allowed source.

http://www.bbc.co.uk/syndication/feeds/news/ukfs_news/world/rss091.xml

You may contact your site administrator and request that this URL be added to the list of allowed sources.

Insert CNN feed here.
