## Analysis Resources

Name	Author(s)	Description	Year
<a href="#">Competency Application Demo</a>	Craig Wiggins	Application demo; broken macros and links	2014
<a href="#">Healthstream Tackles Tin Can Assessments - Watershed LRS</a>	Craig Wiggins	Application demo; broken macros and links	2014
<a href="#">Review for MedBiq Learning Experience Group re: Common Identifiers</a>	Valerie Smothers / David Topps	Notes on xAPI meeting discussing certain issues and resources and applications related to xAPI integration	2016
<a href="#">Review for MedBiq xAPI group re common identifiers</a>	David Topps	Same note as above, but in .rtf format	2016
<a href="#">MedBiquitous xAPI Webinar</a>	Mike Hruska	Presentation on building learning ecosystems with xAPI and HPML	2015
<a href="#">Constructs problem solutions</a>	Hruska and Long	Table defining several constructs; Human Performance Interoperability via xAPI: Current Military Outreach Efforts	2015
<a href="#">Transfusion demo checklist</a>	Mich. Medicine Nursing	Example checklist for competency evaluation	2014
<a href="#">Suicide Checklist PA</a>	Mich. Medicine Nursing	Example checklist for competency evaluation	2014
<a href="#">Chem 7-10 demo checklist</a>	Mich. Medicine Nursing	Example checklist for competency evaluation	2014
<a href="#">Accucheck demo checklist</a>	Mich. Medicine Nursing	Example checklist for competency evaluation	2014

## Data Requirements

Name	Author(s)	Description	Year
<a href="#">Data Requirements</a>	Valerie Smothers	Example framework for data requirements	2015
<a href="#">Discussion on Inaction</a>	Valerie Smothers	Considering how to report and understand learner inaction	2015
<a href="#">Requirements Table</a>	Valerie Smothers	Table of requirements or examples of the kinds of data that they wish to capture	2015
<a href="#">Sample Statements</a>	Valerie Smothers	List of sample statements related to certain use cases	2015
<a href="#">Gap Analysis</a>	Valerie Smothers	Gap analysis of a VA code simulation project	2015

## Important links - need to be checked for brokenness

Name	Author(s)	Description	Year
<a href="#">Profile 2: Human Patient Simulators, Mannequins &amp; task trainers.</a>	Ellen Meiselman	Profile from xAPI standard	2016
<a href="#">'Mannekins and Medical Simulators xAPI Profile' on GDrive.</a>	MBQ Learning Experience WG	"This GDoc is heavily commented as a result of our discussions and contemplations so far. It is very much a draft so feel free to edit and tweak. Once we are more comfortable with a reasonably stable version, we can post it to the Medbiq Confluence server. The most important steps in formally publishing it are to get it into the ADL Registry. I believe that ADL would like us to move towards using GitHub at <a href="https://github.com/adlnet/xapi-authored-profiles">https://github.com/adlnet/xapi-authored-profiles</a> for better version control of xAPI Profiles. But we have some work to do first."	2016
<a href="#">Mannequin CHEST verbs</a>	American College of Chest Physicians	ideas on how the American College of Chest Physicians verbs might translate to what is in our profile.	2016
<a href="#">CMI-5 SCMI-5 Spec</a>	MrBillMcDonald	cmi5 Specification profile for xAPI	2020
<a href="#">Activity Stream verbs</a>	J. Nsell, IBM, et al	A base set of object types and verbs for use with Activity Streams	2011
<a href="#">Relationship between xAPI vocabularies, profiles, and recipes</a>		Describes relationships between
