Profile 2: Human Patient Simulators, Mannequins & task trainers.	Ellen Meiselman	Profile from xAPI standard	2016
'Mannekins and Medical Simulators xAPI Profile' on GDrive.	MBQ Learning Experience WG	"This GDoc is heavily commented as a result of our discussions and contemplations so far. It is very much a draft so feel free to edit and tweak. Once we are more comfortable with a reasonably stable version, we can post it to the Medbiq Confluence server. The most important steps in formally publishing it are to get it into the ADL Registry. I believe that ADL would like us to move towards using GitHub at https://github.com/adlnet/xapi-authored-profiles for better version control of xAPI Profiles. But we have some work to do first."	2016
Mannequin CHEST verbs	American College of Chest Physicians	ideas on how the American College of Chest Physicians verbs might translate to what is in our profile.	2016
CMI-5 SCMI-5 Spec	MrBillMcDonald	cmi5 Specification profile for xAPI	2020
Activity Stream verbs	J. Nsell, IBM, et al	A base set of object types and verbs for use with Activity Streams	2011
Relationship between xAPI vocabularies, profiles, and recipes		Describes relationships between	

Tin can registry			
Virtual patient registry	MBQ xAPI interest group & Virtual Patient standards		

xAPI Proposal

Name	Author(s)	Description	Year
version 0.1	Valerie Smothers	xAPI profile development proposal	2015
Version 0.6	Valerie Smothers	xAPI profile development proposal, most recent version	2015
