Name	Author (s)	Description	Year
PESC Collaboration on Test Scores & Cohort Data	V. Smothers	MedBiquitous is collaborating with PESC, the Post Secondary Education Standards Council, on several components for Educational Achievement. The Educational Achievement specification extends PESC datatypes for test scores. MedBiquitous is also working with the portfolio group within PESC to share information and learn from one another.	
Design Principles	V. Smothers	Design principles for Educational Achievement standard	2011
Open Questions	V. Smothers	Questions that were to be answered by the group	2011
Standards Research	V. Smothers	An "iterative" research report detailing different standards that could be used to develop the Educational Achievement standard. Earlier drafts can be found below.	2012
Requirements & Analysis	V. Smothers	Excel sheet linking MBQ requirements to other types of technical standards.	2012
Technical Review		A set of comments on proposed technical specifications	
Member Interests		MedBiquitous member interests in developing information sharing standards and related work to date
